

IN THE CLAIMS

This is a complete and current listing of the claims, marked with status identifiers in parentheses. The following listing of claims will replace all prior versions and listings of claims in the application.

1.-12. (Cancelled).

13. ((Currently Amended) A method for at least one of treatment of obesity, and/or prevention of obesity, for an overweight condition ~~or~~ and for at least one of controlling body weight reduction and/or prevention of body weight gain, wherein comprising:

administering an effective amount of a fatty acid composition comprising at least one of (all-Z omega-3)-5,8,11,14,17-eicosapentaenoic acid (EPA), or derivatives thereof, and (all-Z omega-3)-4,7,10,13,16,19-docosahexaenoic acid (DHA), or derivatives thereof, or any combinations thereof, is administered to at least one of a human ~~or~~ and an animal.

14. (Currently Amended) A method according to claim 13, wherein the weight ratio of EPA:DHA in the fatty acid composition is 1:X, where X is equal or greater than 1.

15. (Currently Amended) A method according to claim 13, wherein the combination of EPA and DHA are present in the composition in an EPA:DHA ratio from about 1:1 to 1:8; ~~preferably in an EPA:DHA ratio from 1:1 to 1:6.~~

16. (Previously Presented) A method according to claim 13, wherein the fatty acids in the composition is presented in at least one of esterified form, ethyl ester form, salt form and free acid form, or any combinations thereof.

17. (Previously Presented) A method according to claim 13, wherein the fatty acid composition is comprised of a combination of EPA and DHA in triglyceride form.

18. (Previously Presented) A method according to claim 13, wherein at least one of EPA and DHA is obtained from at least one of vegetable, microbial and animal origins.

19. (Previously Presented) A method according to claim 13, wherein at least a part of the EPA and/or DHA is produced from a marine oil, preferably a fish oil.

20. (Currently Amended) A method according to claim 13, wherein the composition is administered orally to at least one of a human and ~~an~~ animal.

21. (Currently Amended) A method according to claim 13, wherein the treatment is carried out together with a reduced intake of calories for at least one of the human or ~~and~~ an animal.

22. (Previously Presented) A method according to claim 13, wherein said fatty acid composition is administered in a daily dosage that corresponds to at least 10 % of the total lipid content of a daily diet for a human or an animal.

23.-36. (Cancelled).

37. (Currently Amended) A dietary product containing a fatty acid composition comprising at least one of (all-Z omega-3)-5,8,11,14,17-eicosapentaenoic acid (EPA), or derivatives thereof, and (all-Z omega-3)-4,7,10,13,16,19-docosahexaenoic acid (DHA), or derivatives thereof, or any combinations thereof, for at least one of non-medical treatment ~~and/or~~ of

~~obesity, prevention of obesity, for an overweight condition and/or, for supporting and controlling at least one of~~ body weight reduction and/or ~~for~~ prevention of body weight gain.

38. (Previously Presented) A dietary product according to claim 37, wherein the weight ratio of EPA:DHA in the fatty acid composition is 1:X, where X is equal or greater than 1.

39. (Previously Presented) A dietary product according to claim 37, wherein the main active ingredient is DHA.

40. (Currently Amended) A dietary product according to claim 37, wherein the dietary product is at least one of a weight-watching product ~~or~~ and a slimming product.

41. (Currently Amended) A dietary product according to claim 37, wherein the combination of EPA and DHA are present in the composition in an EPA:DHA ratio from about 1:1 to 1:8; ~~preferably in an EPA:DHA ratio from 1:1 to 1:6.~~

42. (Previously Presented) A dietary product according to claim 37, wherein at least one of EPA and DHA is obtained from at least one of vegetable, microbial and animal origins or combinations thereof.

43. (Currently Amended) A dietary product according to claim 37, wherein the fatty acid composition is produced from a marine oil, ~~preferably a fish oil.~~

44. (Currently Amended) A dietary product according to claim 37, wherein intake of the dietary product is combined with at least one of a reduced intake of calories for a human and/or ~~together with~~ physical activity.

45. (Currently Amended) A dietary product according to claim 37, wherein said fatty acid composition is administered in a daily dosage that corresponds to at least 10 % of the total lipid content of a daily diet for at least one of a human ~~or~~ and an animal.

46. (Currently Amended) A dietary product according to claim 37, wherein the dietary product is at least one of a bar, snacks ~~or~~ and a beverage.

47.-48. (Cancelled).

49. (Currently Amended) A method for supplementing a dietary product comprising: ~~the step of~~

adding a fatty acid composition comprising at least one of (all-Z omega-3)-5,8,11,14,17-eicosapentaenoic acid (EPA), or derivatives thereof, and (all-Z omega-3)-4,7,10,13,16,19-docosahexaenoic acid (DHA), or derivatives thereof, or any combinations thereof, to ~~the supplement~~ the dietary product for at least one of prevention of body weight gain and/or ~~for~~ controlling and supporting weight reduction in a human.

50. A method according to claim 49, wherein the weight ratio of EPA:DHA in the fatty acid composition is 1:X, where X is equal or larger than 1.

51. A method according to claim 49, wherein the fatty acid composition is presented in at least one of liquid form ~~or~~ and as an emulsion, being incorporated in the supplement product.
